

# ABOUT OUR LOCANDA

Welcome or welcome back in our Locanda LA VIA DEL SALE. Once upon a time, in Po Valley, there was an important “salt way” that joined Marchesato of Saluzzo with France. The “customs-office” was in Revello and the track passed a few meters away from the current inn. We therefore felt it necessary to give a name to our structure that evoked the glorious past of the valley. Today the inn maintains a rigorous mountain style in its furnishings and its aesthetics using wood and local stone. Over the years, the shelter has improved the services ... molding to the new needs proposed by guests: you will find rooms all with private bathroom, sheets, towels, hairdryer, courtesy kit, TV, fan, fridge in the room (fridge only for some rooms) ... but without distorting its essence of refuge. You can rent bikes or snowshoes and you can find information leaflets on excursions or itineraries. The furnishings, in rigorous mountain style, remain sober, simple, rustic and above all flexible to allow the modification of their lay-out according to the user (groups or couples, sporting or working tourism). Our shelter offers cleaning of the bathrooms and changing towels every 2 nights, changing sheets every 4 nights. Breakfast is available in the hotel, by reservation. And above all, we must not forget that we have kept the philosophy of the proposed prices unchanged: nature, for us, is beautiful in every season ... and in every season, you will find the same price!

Sometimes, our structure is compared to a hotel or a B&B, but we prefer to call it a five-star refuge. We trust that what has been said, can help you choose more consciously where to spend your holiday!
